DESCRIPTION

The certificate **voestalpine Express 11** offers an annual opportunity for early redemption, enabling investors to obtain a yield of 6% per year if the share of voestalpine AG quotes at or above its starting value at one of the valuation dates. If the share quotes below the starting value, the term extends by another year - up to a maximum of five years. In the event of a barrier violation (60 % of the starting value) at the final valuation date, the investor is entirely subject to market risk and physical delivery of voestalpine shares is effected.

PRICE DEVELOPMENT SINCE ISSUE DATE

This advertisement serves as non-binding information. The author assumes no responsibility for the accuracy, timeliness and completeness of this advertisement. The provided information is not an offer and is neither a recommendation nor a financial analysis. It does not replace investor-oriented and investment-oriented advice for the purchase and sale of the financial instrument. The base prospectus (including possible amendments) and the respective Key Information Document (KID) of the financial instrument are available on the website of Raiffeisen Bank International AG ("RBI") at www.raiffeisenzertifikate.at/en/securitiesprospectus. The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. You are about to purchase a product that is not simple and may be difficult to understand. We recommend that you read the prospectus before making an investment decision. The investor bears the credit risk of RBI when purchasing the financial instrument. The certificate is subject to specific rules that may already be disadventageous in case of a probable default of RBI (e.g. suspension of interest payments) - see www.raiffeisencertificates.com/en/basag. The price performance shown here is only an information about the historical price performance. Information on past performance is not a reliable indicator of future performance. The investment may lead to tax obligations that vary depending on the client's personal circumstances and future changes. Any limited tax liability in Austria concerning non-resident taxpayers does not imply tax exemption in the state of residence. Please note that due to legal requirements, the times stated here are based on the coordinated world time (UTC). The Central European Time (CET), which applies in Austria, Germany and other Central European countries, is calculated by adding one hour, the summer European Central Summer Time (CEST) by adding two hours. RBI is registered in the business register FN 12

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

Observation of the barrier

only at the final valuation date Redemption Provided that the closing price of the voestalpine AG share quotes at or above the termination level at one of the annual valuation dates, (early) redemption is effected according to the predefined termination price. Otherwise redemption depends on the share performance: nominal value or shares. Redemption is dependent on the solvency of RCB*. Vienna, Frankfurt, Stuttgart

* Raiffeisen Centrobank AG is a 100% owned subsidiary of Raiffeisen Bank International AG - rating of RBI: www.rbinternational.com/ir/ratings

www.rcb.at

The voestalpine Express 11 certificate combines the opportunity to generate an attractive yield with the possibility of early redemption. The share of voestalpine AG serves as underlying for the certificate. For investors who expect the price of this stock to rise or at least remain constant over the next five years, the Express Certificate offers an annual yield opportunity of 6% of the nominal value. The certificate has a term of at least one and not more than five years. Further details regarding opportunities and risks are presented on the following page.

FUNCTIONALITY

At the initial valuation date the closing price of the voestalpine AG share is fixed as starting value and the barrier (60% of the starting value) is determined. The starting value also represents the termination level.

At the annual valuation dates the closing price of the voestalpine AG share is compared to the termination level. If the share's closing price quotes at or above the termination level at one of the valuation dates, the certificate is redeemed at the predefined termination price:

| TERM | TERMINATION LEVEL | TERMINATION PRICE | YIELD | | |
|---|-----------------------|---------------------------|--------|--|--|
| 1 st year: | 100% = starting value | 106% of the nominal value | 1 x 6% | | |
| 2 nd year: | 100% = starting value | 112% of the nominal value | 2 x 6% | | |
| 3 rd year: | 100% = starting value | 118% of the nominal value | 3 x 6% | | |
| 4 th year: | 100% = starting value | 124% of the nominal value | 4 x 6% | | |
| 5 th year: | 100% = starting value | 130% of the nominal value | 5 x 6% | | |
| | | | | | |
| → THE TERMINATION PRICE INCREASES WITH THE TERM | | | | | |

If the share quotes below the starting value at the annual valuation date, the term extends by another year (up to a maximum term of five years). At the same time, the potential annual termination price rises by 6% of the nominal value annually (up to a maximum of 130%).

If the certificate is not redeemed in the first four years and provided that the underlying quotes below the termination level at the fifth and final valuation date, an additional safety mechanism applies. If the share (closing price) quotes above the barrier of 60% of the starting value, redemption is effected at 100% of the nominal value. This means that if the share price did not decline by 40% or more compared to the starting value by the end of the term, investors obtain the nominal value of EUR 1,000 at the maturity date. If the closing price of the share is at or below the barrier at the final valuation date, the investor receives shares of voestalpine AG in the amount predefined at the initial valuation date (= nominal value/ starting value). The difference to the next whole number is paid out.

DEFINED NUMBER OF SHARES

The number of shares to be delivered is determined as follows: Number of shares = nominal value/starting value

Usually this does not result in whole numbers. Due to the fact that shares are traded in whole numbers only, in the event of physical delivery the residual value is paid out in cash (= cash settlement) according to the market value: Fraction of the shares x closing price of the share at the final valuation date = cash settlement

The voestalpine Express 11 certificate provides for **physical delivery** of the shares. In the most unfavourable case, the investor gets shares of voestalpine AG at the end of the term.

EUR 20.6520
29.0529 shares**

*... exemplary starting value based on the closing price of the voestalpine AG share as of July 7, 2021.

OPPORTUNITIES

- Yield opportunity: Opportunity to obtain yield if the share price of voestalpine AG remains constant or increases.
- Possible early redemption: Early redemption at the predefined termination price if the share
 quotes at or above the termination level at one of the valuation dates.
- Flexibility: Tradability on secondary market, no management fees

Source: Reuters (VOES.VI), ISIN: AT0000937503; "... The fraction of the shares is paid out.

RISKS

- Limited yield opportunity: The maximum yield is limited to 6% per year of maturity. If the share of voestalpine AG does not quote at or above the termination level at any of the five valuation dates, no (early) redemption at the predefined termination price will be effected and investors will not obtain any yield.
- Barrier violation: If the barrier is violated at the final valuation date, investors receive voestalpine shares in the amount predefined and are entirely subject to market risk, without any protective mechanism. In the event of a physical delivery, the market value of the delivered shares will be less than the nominal value. Close to the barrier, disproportionate price movements of the certificate can also occur during the term.
- Issuer risk / Bail-in: Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG (www.rcb.at) by entering the International Securities Identification Number (ISIN) of the respective financial instruments

Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The price of the Express Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Express Certificate. If the Express Certificate is sold, there is the risk to incur a substantial loss or even a total loss of the invested capital ('market risk''). The Express Certificate is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Express Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital (price performance). Dividends and similar rights associated with the underlying are taken into account when structuring the Express Certificate and are not paid out.

Certificates issued by RCB are no financial products as defined in the Regulation (EU) 2019/2088
