## DESCRIPTION

Plus Protect Reverse Convertible Bonds have a high fixed interest rate. At the end of the term the interest amount is paid out regardless of the performance of the underlying. Plus Reverse Convertible Bonds have a barrier which is set below the strike and which is observed solely at the final valuation date. Redemption depends on the performance of the underlying. If, at the final valuation date, the underlying quotes above the barrier, the Reverse Convertible Bond is redeemed at 100%.

If the closing price is at or below the barrier, the investor obtains the amount of shares per nominal value as pre-defined at the issue date. The difference to the next integral number is redeemed.

This certificates complies with the **sustainability standard for Raiffeisen Certificates** and takes into account important adverse impacts on sustainability factors ("PAIs").
