Heightened U.S.-China trade tensions are currently putting financial markets under pressure. This is also threatening to weaken the already fragile economic growth. As a consequence, equity investors are banking on more support from central banks.

In a market environment dominated by uncertainty, high dividend yielding stocks are especially popular. For cautious investors who expect a stable performance of the **STOXX® Global Select Dividend 100 index** over the next 5 years, the **Dividend Stocks Winner V 95%** presents a suitable investment opportunity. In addition to the 95% capital protection, investors participate 1:1 in the performance of the underlying STOXX® Global Select Dividend 100 index up to the cap of 125% of the starting value at maturity. This means the maximum payout is limited to EUR 1,250 per nominal value. Due to the capital protection of 95% at the end of the term, investors participate in price losses of the index by a maximum of -5%. The certificate has a term of 5 years. For details on risks and opportunities please see the following pages.

FUNCTIONALITY

Beginning of the term:

At the initial valuation date the **starting value** of the STOXX® Global Select Dividend 100 index (closing price as of July 25, 2019) and the cap (125% of the starting value) are determined.

End of the term:

At the end of the term, the performance of the STOXX® Global Select Dividend 100 index is evaluated. Therefore, the index starting value is compared to the index closing price at the final valuation date (July 23, 2024). Investors participate 1:1 in the performance of the underlying index. The cap of 125% of the index starting value represents the maximum amount (equals EUR 1,250 per nominal value). In case of a negative index performance of more than -5%, the capital protection of 95% applies.

At the end of the term the investment is **95% capital protected** by Raiffeisen Centrobank AG, i.e. during the term price fluctuations may occur, but at the end of the term the investor obtains at least 95% of the nominal value.
