ATTRACTIVE FIXED INTEREST RATE ABOVE MARKET LEVEL

In short:

The 6.75% Europe Protect Reverse Convertible Bond provides for an attractive fixed interest rate: the interest amount is paid out annually, regardless of the performance of the three underlying shares (Airbus SE, ING Groep N.V. and Sanofi S.A.). At the end of the term, depending on the performance of the shares, either the nominal value is paid out or shares are delivered.

Attractive yields in a low interest rate environment, partial protection against price slumps and a short term are convincing arguments for many investors. The new **6.75% Europe Protect Reverse Convertible Bond** combines all these features in one product. The investment product without capital protection provides a fixed annual interest payment of 6.75% with a partial protection up to the barrier of 55% of the starting value as safety mechanism. The certificate has a term of two years. Further details regarding opportunities and risks are listed on the next page.

SHARE BASKET

The **share basket** of the Protect Reverse Convertible Bond consists of three European blue chips:

- **Airbus SE** is the second largest aerospace company in the world by revenue. The business units of the company can be roughly divided into passenger aircrafts, helicopters, defense/security and space.
- **ING Groep N.V.** is a Dutch multinational banking and financial services corporation. It is one of worldwide 29 systemically important financial institutions. The group offers banking services to more than 38 million retail and wholesale banking customers in over 40 countries.
- The French **Sanofi S.A.** is one of the world's leading pharmaceutical companies. The company focuses on the areas of diabetes, cardiovascular diseases, vaccinations and specialty care.

FUNCTIONALITY

Reverse Convertible Bonds have a predefined **maturity date**, a **fixed interest rate** and a **strike**, set at the initial valuation date. Moreover, **Protect Reverse Convertible Bonds** issued by Raiffeisen Centrobank AG are equipped with a **barrier** set below the **strike**, which serves as an additional safety mechanism. These parameters remain unchanged during the term. The interest rate, which is above market level, provides investors with an attractive yield if the Protect Reverse Convertible Bond is redeemed at 100% of the nominal value. In case of **physical delivery of the shares**, the interest amount mitigates or may even overcompensate the loss incurred from the delivery of shares.

At the initial valuation date, the closing prices of the three underlying shares are fixed as **strikes** and the number of shares for potential physical delivery is determined. Additionally, the **respective barriers** (55% of each respective strike) are set.

- The **fixed interest rate** of 6.75% is **paid out** annually regardless of the performance of the three underlying shares (equals two times EUR 67.50 per nominal value).
- **Redemption** of the nominal value at the end of the term depends on the performance of the three underlying shares. During the observation period the closing prices of the shares are compared with their respective barrier on a daily basis.

UNDERLYINGS 6.75% EUROPE PROTECT REVERSE CONVERTIBLE BOND

Airbus SE

ING Groep N.V.

Sanofi S.A.

The 6.75% Europe Protect Reverse Convertible Bond provides for **physical delivery** of shares. In the most unfavourable case, the investor gets the worst performing share in the amount predefined delivered.

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

At the final valuation date, **one of the following scenarios** will apply:

SCENARIO 1: All shares quoted daily ABOVE their barrier

If the daily closing prices of Airbus SE, ING Groep N.V. and Sanofi S.A. are always above their **barrier of 55%** during the observation period, **redemption** is effected **at 100% of the nominal value**. Provided that none of the three shares ever closes 45% or more below its respective strike, investors obtain the nominal amount of EUR 1,000 at the maturity date. This amount represents the maximum payout.

SCENARIO 2: Barrier was TOUCHED/UNDERCUT by at least one of the shares

If the barrier of 55% of the respective strike is touched or undercut by the closing price of **one or more** of the underlying shares (Airbus SE, ING Groep N.V., Sanofi S.A.) during the observation period, the investor receives the worst performing share (percentage change from strike to closing price at the final valuation date) in the **amount predefined at the initial valuation date**. The difference to the next whole number is paid out. If the closing prices of all shares quote at or above their strikes at the final valuation date, the investor obtains the nominal value of EUR 1,000 at the end of the term. Even if the barrier was touched or undercut, this amount represents the maximum payout.

EXAMPLE – assumption: if the initial valuation date had been July 24, 2019

SHARE	STRIKE* 100%	BARRIER 55%	NUMBER OF SHARES (NOMINAL VALUE / STRIKE)
Airbus SE	EUR 131.960	EUR 72.5780	7.5781 shares
ING Groep N.V.	EUR 10.288	EUR 5.6584	97.2006 shares
Sanofi S.A.	EUR 75.730	EUR 41.6515	13.2048 shares

* ... exemplary strike in relation to the closing price of the respective share on July 24, 2019.

OPPORTUNITIES

▫ Attractive fixed interest rate:

The fixed annual interest amount (6.75% p.a.) is paid out regardless of the performance of the three underlying shares.

▫ Safety buffer:

Attractive yield in sideways moving and slightly decreasing markets due to the partial protection against falling prices down to the barrier of 55%

▫ Secondary market:

Tradability on the secondary market, no management fees

RISKS

▫ Barrier violation:

If the respective barrier is touched or undercut by the closing price of at least one of the three shares, the investor is entirely subject to market risk, without any protective mechanism.

▫ Limited yield opportunity:

The opportunity for yields is in any case limited to the fixed interest rate (2 x 6.75%). Investors do not participate in price increases of the underlyings beyond their respective strikes.

▫ Issuer risk / Bail-in:

Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Structured securities are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Structured securities react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying.

Issuer Risk/Creditor Participation ("bail-in"): Any payments for structured securities during the term or at the end of the term depend on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. A total loss of the capital invested is possible. More detailed information is available at www.rcb.at/en/basag. Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.
