The certificate has a term of eight years. Details regarding opportunities and risks of the certificate are presented on the following page.

FUNCTIONALITY

Beginning of the term:

At the initial valuation date the **starting value** of the STOXX® Europe ESG Leaders Select 30 index (closing price as of Jun 27, 2019) and the cap (136% of the starting value) are determined.

End of the term:

At the end of the term, the performance of the STOXX® Europe ESG Leaders Select 30 index is evaluated. The index starting value is compared to the index closing price at the final valuation date (Jun 23, 2027). Investors participate at 100% in the performance of the underlying index up to the cap of 136% of the starting value. Thus, the maximum payout is limited to EUR 1,360 per nominal value. In case of a negative performance of the STOXX® Europe ESG Leaders Select 30 index, the capital protection of 100% applies.

The **100% capital protection** by Raiffeisen Centrobank only applies at maturity, i.e. during the term the certificate price may drop below 100%, but at the end of the term the investor obtains 100% of the nominal value in the worst case.

At the final valuation date one of the following scenarios applies:

SCENARIO 1: Index performance is POSITIVE

At the end of the term the increase in the index price from the starting value to the closing price at the final valuation date up to a maximum of +36% is paid out in addition to the nominal value (equals a maximum payout of EUR 1,360 per nominal value).

SCENARIO 2: Index performance remains UNCHANGED or is NEGATIVE

If the underlying index quotes at or below its starting value at the final valuation date, the capital protection of 100% applies at the end of the term. In this case, redemption is effected at 100% of the nominal value at the end of the term (equals EUR 1,000 per nominal value).
