Taxation	Capital Gains Tax / no Foreign Capital Gains Tax

DESCRIPTION

The certificate **BMW Express 5** offers an annual opportunity for early redemption, enabling investors to obtain a yield of 9% per year if the share of BMW Group quotes at or above its starting value at one of the valuation dates. If the share quotes below the starting value, the term extends by another year - up to a maximum of five years. In the event of a barrier violation (60% of the starting value) at the final valuation date, the investor is entirely subject to market risk and physical delivery of BMW shares is effected. This certificate complies with the **sustainability standard for Raiffeisen Certificates** and takes into account important adverse impacts on sustainability factors ("PAIs").

T:	+431 71707 5454
W:	www.raiffeisencertificates.com

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

BMW EXPRESS 5

INVESTMENT PRODUCT WITHOUT CAPITAL PROTECTION
EXPRESS CERTIFICATE

- Underlying: share of BMW AG
- Annual yield opportunity of 9%
- Barrier at 60% of the starting value, only active at the end of the term (share delivery possible)
- Annually declining termination level
- Full market risk in case of barrier violation, issuer risk
- Further information on opportunities/risks on the following pages
- Term: 1 to 5 years (early redemption possible)

Certificates by

**Raiffeisen
CENTROBANK**

REACH YOUR TARGET BY EXPRESS

In short:

This certificate provides the opportunity for early redemption each year and enables investors to obtain a yield of 9% per year if the price of the BMW share quotes on one of the annual valuation days at or above the annually declining termination level. In case the share price quotes below the respective termination level, the term will be extended by another year – up to a maximum of 5 years. If the barrier is violated at the end of the term, the investor is entirely subject to market risk.

This certificate complies with RCB's sustainability standard. For further information please click here: www.rcb.at/en/sustainability

KEY FACTS

Issuer	Raiffeisen Centrobank AG*
Offer	continuous issuing
ISIN	AT0000A2UW84
Issue price	100%
Nominal Value	EUR 1,000
Subscription period ¹	Jan 1 - Jan 31, 2022
Initial valuation date	Feb 1, 2022
Issue value date	Feb 2, 2022
Annual valuation dates	Jan 31, 2023; Jan 31, 2024; Jan 30, 2025; Jan 29, 2026; Jan 29, 2027
Final valuation date	Jan 29, 2027
Early maturity dates	Feb 3, 2023; Feb 5, 2024; Feb 4, 2025; Feb 3, 2026
Maturity date	Feb 3, 2027
Starting value	closing price of the share at the initial valuation date
Termination levels in % of the starting value	2023: 100%, 2024: 95%, 2025: 90%, 2026: 85%, 2027: 80%
Observation of the termination level	at each annual valuation date
Barrier	60% of the starting value observation only at the final valuation date
Observation of the barrier	only at the final valuation date
Redemption	Provided that the closing price of the BMW share quotes at or above the termination level at one of the annual valuation dates, (early) redemption is effected according to the predefined termination price. Otherwise redemption depends on the share performance: nominal value or shares. Redemption is dependent on the solvency of RCB*.

within the sole discretion of Raiffeisen Centrobank AG.

FUNCTIONALITY

At the **initial valuation date**, the closing price of the BMW share is fixed as **starting value** and the **barrier** (60% of the starting value) is determined. Additionally, the annually declining termination levels are determined.

At the respective **annual valuation date** the **closing price of the BMW share** is **compared** with the respective **termination level**. If the share **closing price** quotes at or above the **termination level** at the respective valuation date, (early) redemption of the certificate is effected at the predefined termination price:

TERM	TERMINATION LEVEL	TERMINATION PRICE	YIELD
1 st year:	100% = starting value	109% of the nominal value	1 x 9%
2 nd year:	95% = starting value	118% of the nominal value	2 x 9%
3 rd year:	90% = starting value	127% of the nominal value	3 x 9%
4 th year:	85% = starting value	136% of the nominal value	4 x 9%
5 th year:	80% = starting value	145% of the nominal value	5 x 9%

→ **THE LONGER THE TERM, THE LOWER THE TERMINATION LEVEL
AND THE HIGHER THE TERMINATION PRICE**

If the share quotes below the termination level at the annual valuation date, the term extends by another year (up to a maximum term of five years). At the same time, the **possible termination price increases annually by 9% of the nominal value** (up to a maximum of 145%), while the annual termination level declines by 5 percentage points at the same time.

If the certificate is not redeemed in the first four years and provided that the underlying quotes below the termination level of 80% at the fifth and **final valuation date**, an additional safety mechanism applies. If the share (closing price) quotes above the barrier of 60% of the starting value, **redemption is effected at 100% of the nominal value**. This means that if the share price did not decline by 40% or more compared to the starting value by the end of the term, investors obtain the nominal value of EUR 1,000 at the maturity date.

If the closing price of the share is at or below the barrier at the final valuation date, **physical delivery of shares** is effected. This means the investor receives shares of BMW AG in the **amount predefined** at the initial valuation date (= nominal value/starting value). The difference to the next whole number is paid out.

DEFINED NUMBER OF SHARES

The number of shares to be delivered is determined as follows: **number of shares = nominal value/starting value**. Usually this does not result in whole numbers. Due to the fact that shares are traded in whole numbers only, in the event of physical delivery the residual value is paid out in cash (= cash settlement) according to the market value: **fraction of the shares x closing price of the share at the final valuation date = cash settlement**

The **BMW Express 5** certificate provides for **physical delivery** of shares. In the most unfavourable case, the investor gets shares of BMW AG at the end of the term.

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision) – and the key information document as well as „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

BARRIER AND CALCULATION OF THE NUMBER OF SHARES

SHARE	STARTING VALUE 100%*	BARRIER 60%	NUMBER OF SHARES = (nominal value/starting value)
BMW AG	EUR 88.40	EUR 53.040	11.3122 shares**

*... exemplary starting value based on the closing price of the BMW share as of Dec 14, 2021 at EUR 88.40; Source: Reuters (BMWG.DE), ISIN: DE0005190003; **... The fraction of the shares is paid out.

OPPORTUNITIES

- **Yield opportunity:** Investors have the opportunity to generate yield if the share of BMW AG increases, remains at the same level or slightly decreases after the first year (see annually decreasing termination levels).
- **Possible early redemption:** Early redemption at the predefined termination price if the share quotes at or above the termination level at one of the annual valuation dates.
- **Flexibility:** Tradability on secondary market, no management fees

RISKS

- **Limited yield opportunity:** The maximum yield is limited to 9% per year of maturity. If the share of BMW AG does not quote at or above the termination level at any of the five valuation dates and above the barrier of 60% of the starting value at maturity,, no (early) redemption at the predefined termination price will be effected and investors will not obtain any yield.
- **Barrier violation:** If the barrier is violated at the final valuation date, investors receive BMW shares in the amount predefined and are entirely subject to market risk, without any protective mechanism. In the event of a physical delivery, the market value of the delivered shares will be less than the nominal value. Close to the barrier, disproportionate price movements of the certificate can also occur during the term.
- **Issuer risk / Bail-in:** Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of

Raiffeisen Centrobank AG (www.rcb.at) by entering the International Securities Identification Number (ISIN) of the respective financial instrument.

Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The price of the Express Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Express Certificate. If the Express Certificate is sold, there is the risk to incur a substantial loss or even a total loss of the invested capital ("market risk"). The Express Certificate is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Express Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital (price performance). Dividends and similar rights associated with the underlying are taken into account when structuring the Express Certificate and are not paid out.

Certificates issued by RCB are no financial products as defined in the Regulation (EU) 2019/2088.
