## In short:

The voestalpine Express 8 certificate offers an annual opportunity for early redemption, enabling investors to obtain a yield of 13% per year if the share of voestalpine AG quotes at or above its starting value at one of the valuation dates. If the share quotes below the starting value, the term extends by another year – up to a maximum of five years. In the event of a barrier violation at the final valuation date, the investor is entirely subject to market risk.

The **voestalpine Express 8** certificate combines the opportunity to generate an attractive yield with the possibility of early redemption. The share of the globally operating steel company **voestalpine AG** serves as underlying for the certificate. For investors who expect the price of this stock to rise or at least remain constant over the next five years, the Express Certificate offers an annual yield opportunity of 13% of the nominal value. The certificate has a term of at least one and not more than five years. Further details regarding opportunities and risks are presented on the following page.

### FUNCTIONALITY

At the **initial valuation date** the **closing price** of the voestalpine AG share is fixed as starting value and the **barrier** (60% of the starting value) is determined. The starting value also represents the **termination level**.

At the **annual valuation dates** the **closing price of the voestalpine AG share** is compared with the **termination level**. If the share closing price quotes at or above the termination level at one of the valuation dates, the certificate is redeemed at the predefined termination price:

TERM	TERMINATION LEVEL	TERMINATION PRICE	YIELD
1 <sup>st</sup> year:	100% = starting value	113% of the nominal value	1 x 13%
2 <sup>nd</sup> year:	100% = starting value	126% of the nominal value	2 x 13%
3 <sup>rd</sup> year:	100% = starting value	139% of the nominal value	3 x 13%
4 <sup>th</sup> year:	100% = starting value	152% of the nominal value	4 x 13%
5 <sup>th</sup> year:	100% = starting value	165% of the nominal value	5 x 13%

→ THE TERMINATION PRICE INCREASES WITH THE TERM

If the share quotes below the starting value at the annual valuation date, the term extends by another year (up to a maximum term of five years). At the same time, the potential annual termination price rises by 13% of the nominal value annually (up to a maximum of 165%).

If the certificate is not redeemed in the first four years and provided that the underlying quotes below the termination level at the fifth and **final valuation date**, an additional safety mechanism applies. If the share (closing price) quotes above the barrier of 60% of the starting value, **redemption is effected at 100% of the nominal value**. This means that if the share price did not decline by 40% or more compared to the starting value by the end of the term, investors obtain the nominal value of EUR 1,000 at maturity. If the closing price of the share is at or below the barrier at the final valuation date, the investor receives shares of voestalpine AG in the **amount predefined** at the initial valuation date (nominal value/starting value). The difference to the next whole number is paid out.

## TERMINATION LEVEL

If the share closing price is at or above the termination level at one of the valuation dates, the Express Certificate is redeemed (prior to maturity). With the voestalpine Express 8 certificate, the termination level equals the starting value.

## BARRIER

With the voestalpine Express 8 certificate the barrier is only observed at the **final valuation date**.

## NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at [www.rcb.at/en/securitiesprospectus](http://www.rcb.at/en/securitiesprospectus) (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at [www.rcb.at/en/customerinformation](http://www.rcb.at/en/customerinformation)

**EXAMPLE – assumption:** initial valuation date had been October 14, 2019:

SHARE	STARTING VALUE 100%	BARRIER 60%	NUMBER OF SHARES (nominal value/starting value)
voestalpine AG	EUR 21.44*	EUR 12.864	46.6418 shares <sup>1</sup>

1... The difference to the next whole number is paid out.

## OPPORTUNITIES

- Opportunity to obtain yield if the share price of voestalpine AG remains constant or increases.
- Early redemption at the predefined termination price if the share quotes at or above the termination level at one of the valuation dates.
- If no early redemption is effected, the safety buffer of 40% at the end of the term applies (barrier at 60%).
- Tradability on the secondary market, no management fees

## RISKS

- If the share of voestalpine AG does not quote at or above the termination level at any of the five valuation dates, no (early) redemption at the predefined termination price will be effected and investors will not obtain a yield.
- If the barrier is violated at the final valuation date, investors receive voestalpine AG shares in the amount predefined and are entirely subject to market risk, without any protective mechanism.
- This Express Certificate does not yield regular annual payments such as interest payments.
- Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

Additional information on the financial instruments described herein may also be obtained from the respective key information documents that are available for download on the website of Raiffeisen Centrobank AG ([www.rcb.at](http://www.rcb.at)). Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Structured securities are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Structured securities react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying.

Issuer Risk/Creditor Participation ("bail-in"): Any payments for structured securities during the term or at the end of the term depend on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. A total loss of the capital invested is possible. More detailed information is available at [www.rcb.at/en/basag](http://www.rcb.at/en/basag). Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.
