# REACH YOUR TARGET BY EXPRESS

## In short:

The certificate Europe Sustainability Express offers an annual opportunity for early redemption, enabling investors to obtain a yield of 5.5% per year if the STOXX® Europe ESG Leaders Select 30 index quotes at or above its starting value at one of the valuation dates. If the index quotes below the starting value, the term extends by another year – up to a maximum of five years. In the event of a barrier violation at the final valuation date, the investor is entirely subject to market risk.

The certificate **Europe Sustainability Express** provides investors with the opportunity to generate an attractive yield and to have the certificate redeemed prior to the maturity date. The **STOXX® Europe ESG Leaders Select 30 index** serves as underlying for the certificate. The index tracks the performance of 30 sustainable European companies. For investors who expect the price of this index to rise or at least remain constant over the next five years, the Express Certificate offers an annual yield opportunity of 5.5% of the nominal value. The certificate has a term of at least one and not more than five years. Further details regarding opportunities and risks are presented on the following pages.

### FUNCTIONALITY

At the **initial valuation date** the closing price of the STOXX® Europe ESG Leaders Select 30 index is fixed as **starting value** and the **barrier** (60% of the starting value) is determined. The starting value also represents the **termination level**.

At the **annual valuation dates** the **closing price** of the STOXX® Europe ESG Leaders Select 30 index is **compared to the termination level**. If the index closing price quotes at or above the termination level at one of the valuation dates, the certificate is redeemed (prior to maturity) at the predefined termination price:

TERM	TERMINATION LEVEL	TERMINATION PRICE	YIELD
1 <sup>st</sup> year:	100% = starting value	105.5% of the nominal value	1 x 5.5%
2 <sup>nd</sup> year:	100% = starting value	111.0% of the nominal value	2 x 5.5%
3 <sup>rd</sup> year:	100% = starting value	116.5% of the nominal value	3 x 5.5%
4 <sup>th</sup> year:	100% = starting value	122.0% of the nominal value	4 x 5.5%
5 <sup>th</sup> year:	100% = starting value	127.5% of the nominal value	5 x 5.5%

→ THE LONGER THE TERM, THE HIGHER THE TERMINATION PRICE

If the index quotes below the starting value at the annual valuation date, the term extends by another year (up to a maximum term of five years). At the same time, the potential termination price rises by 5.5% of the nominal value annually (up to a maximum of 127.5%).

If no early redemption was effected from the first to the fourth year and provided that the underlying also quotes below the termination level at the fifth and **final valuation date**, an additional safety mechanism applies: in case the closing price of the index quotes above the barrier of 60% of the starting value, **redemption is effected at 100%**. This means, if the index did not decline by 40% or more compared to the starting value by the end of the term, investors obtain the nominal value of EUR 1,000 at the maturity date. In case the closing price of the index quotes at or below the barrier at the end of the term, redemption is effected in accordance with the index performance (percentage change from the starting value to the closing price at the final valuation date).

## TERMINATION LEVEL

If the index closing price is at or above the termination level at one of the valuation dates, the Express Certificate is redeemed (prior to maturity). With the certificate Europe Sustainability Express, the termination level equals the starting value.

## BARRIER

With the Europe Sustainability Express Certificate the barrier of 60% is solely observed at the **final valuation date**.

## NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at [www.rcb.at/en/securitiesprospectus](http://www.rcb.at/en/securitiesprospectus) (we recommend reading the prospectus before making an investment decision) – in the key information document and among „Customer Information and Regulatory Issues“ at [www.rcb.at/en/customerinformation](http://www.rcb.at/en/customerinformation)

## OPPORTUNITIES

- Investors have the opportunity to generate yield if the price of the STOXX® Europe ESG Leaders Select 30 index remains unchanged or increases.
- (Early) redemption at the predefined termination price if the index quotes at or above the termination level at one of the valuation dates
- If no early redemption is effected, there is a safety buffer at the end of the term (barrier at 60% of the starting value).
- Flexibility through tradability on the secondary market, no management fees

## RISKS

- If the STOXX® Europe ESG Leaders Select 30 index does not quote at or above the termination level at any of the five valuation dates, no (early) redemption at the predefined termination price will be effected and investors will not obtain a yield.
- If the barrier of the Express Certificate is violated at the final valuation date, investors are entirely subject to market risk, without any protective mechanism.
- This Express Certificate does not yield regular annual payments such as interest payments.
- Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

This marketing communication has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The sole legal basis for all financial instruments described in this marketing communication is the Base Prospectus (including any possible supplements or amendments) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the financial instruments. The approved Base Prospectus (including any possible supplements or amendments) has been deposited at the Oesterreichische Kontrollbank AG. The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. These documents as well as further information are provided on the website of Raiffeisen Centrobank AG at [www.rcb.at/en/securitiesprospectus](http://www.rcb.at/en/securitiesprospectus) or [www.rcb.at](http://www.rcb.at). Additional information on the financial instruments described herein may also be obtained from the respective key information documents that are available for download on the website of Raiffeisen Centrobank AG ([www.rcb.at](http://www.rcb.at)). Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Structured securities are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Structured securities react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying.

Issuer Risk/Creditor Participation ("bail-in"): Any payments for structured securities during the term or at the end of the term depend on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. A total loss of the capital invested is possible. More detailed information is available at [www.rcb.at/en/basag](http://www.rcb.at/en/basag). Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation.
