

6% EUROPEAN INDUSTRIES BONUS 2

INVESTMENT PRODUCT WITHOUT CAPITAL PROTECTION
BONUS CERTIFICATE

- Three European indices as underlyings:
EURO STOXX® Banks Price index,
STOXX® Europe 600 Health Care EUR Price index,
STOXX® Europe 600 Basic Resources EUR Price index
- 6% fixed annual interest rate
- Barrier at 59% of each index
- Full market risk if barrier is violated, issuer risk
- Further opportunities and risks on the following pages
- Term of 2 years

EURO STOXX® and STOXX® are registered trademarks of STOXX Ltd.

Certificates by

ATTRACTIVE FIXED INTEREST RATE ABOVE MARKET LEVEL

In short:

The 6% European Industries Bonus 2 certificate enables investors to obtain a fixed interest rate – the interest rate is paid out annually in any case, regardless of the performance of the three underlying indices. Redemption of the nominal value at maturity is effected at 100% if the three underlying indices always quote above the barrier of 59% of their respective starting value during the observation period. In the event of a barrier violation during the term by at least one of the underlyings, investors are exposed one to one to market risk. This means that a substantial loss of capital is possible.

KEY FACTS

Issuer	Raiffeisen Centrobank AG*
Offer	continuous issuing
ISIN / WKN	AT0000A2SRM7 / RC04MR
Issue price	100%
Nominal value	EUR 1,000
Subscription period ¹	September 02 - September 29, 2021
Initial valuation date	September 30, 2021
Issue value date	October 01, 2021
Final valuation date	September 27, 2023
Maturity date	October 02, 2023
Starting value	Closing price of each index at the initial valuation date
Barrier	59% of the respective starting value
Observation	continuous
Observation period	October 01, 2021 - September 27, 2023
Fixed interest rate	6% annually
Interest rate payout dates	October 01, 2022; October 01, 2023
Redemption	If the prices of the EURO STOXX® Banks Price index, STOXX® Europe 600 Health Care EUR Price index, STOXX® Europe 600 Basic Resources EUR Price index always quote above the barrier of 59% of their respective starting values during the observation period, the certificate is redeemed at 100% of the nominal value. Otherwise the certificate is redeemed according to the performance of the underlying index which performs worst. Redemption is dependent on the solvency of RCB*.

Solid yields in a low interest rate environment, partial protection against price drops and a short term are convincing arguments for many investors. The new **6% European Industries Bonus 2** certificate combines all these features in one product. The investment product without capital protection combines two fixed annual interest payments of 6% with an initial distance to the barrier (the lower price threshold which may neither be touched nor undershot) of 41%. The certificate has a term of two years. Further details regarding opportunities and risks of this certificate are presented on the following page.

FUNCTIONALITY

At the initial valuation date, the **closing prices of all three indices** are fixed as **starting values** and the respective **barriers** (59% of the respective starting value) are determined.

- **The fixed annual interest rate** of 6% is paid out annually during the **two-year term** regardless of the performance of the three underlying indices (equals two times EUR 60 per nominal value).
- **Redemption** of the nominal value at the end of the term depends on the performance of the three underlying indices. During the observation period the price of each index is continuously compared with the respective barrier. At the final valuation date, **one of the following scenarios** will apply:

SCENARIO 1: All three indices always quote ABOVE their respective barriers

Provided that the prices of the EURO STOXX® Banks Price index, the STOXX® Europe 600 Health Care EUR Price index, **AND** the STOXX® Europe 600 Basic Resources EUR Price index always quote above the barrier of 59% of the respective starting value during the observation period, the certificate is **redeemed at 100% of the nominal value**. This means that if none of the three indices ever trades 41% or more below its starting value, investors obtain the nominal value of EUR 1,000 at the maturity date. This amount also represents the maximum payout.

SCENARIO 2: Barrier was TOUCHED/UNDERCUT by at least one index

If the barrier of 59% of the respective starting value was touched or undercut by **ONE** or **MULTIPLE** indices (EURO STOXX® Banks Price index, STOXX® Europe 600 Health Care EUR Price index, STOXX® Europe 600 Basic Resources EUR Price index), payout at maturity is effected according to the worst performing index (percentage change from the starting value to the closing price at the final valuation date) - "worst of". Even if the barrier is touched or undercut, the maximum payout is limited to EUR 1,000 per nominal value and investors do not participate in price increases of the underlyings beyond their starting values.

EURO STOXX® Banks Price index

The Euro Stoxx® Banks Price index comprises 21 leading financial institutions from 8 eurozone countries and constitutes a benchmark for the European banking industry. Besides banks such as the Spanish Banco Santander, the French Société Générale and the German Commerzbank, also major Austrian banks such as Raiffeisen Bank International and Erste Group Bank are part of the index.

STOXX® Europe 600 Health Care EUR Price index

The STOXX® Europe 600 Health Care EUR Price index comprises leading healthcare technology and pharmaceutical companies. All 57 index members are headquartered in Europe. Among them are leading pharmaceutical companies such as Novartis, Roche, Merck and AstraZeneca.

STOXX® Europe 600 Basic Resources EUR Price index

The STOXX® Europe 600 Basic Resources EUR Price index tracks the performance of the stocks of 19 European companies focusing on extraction and processing of basic resources (raw materials). Among the index constituents are mining companies Rio Tinto and BHP Group as well as the steel companies ArcelorMittal and voestalpine.

SUITED MARKET EXPECTATION

YOUR INVESTMENT HORIZON

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

OPPORTUNITIES

▫ Attractive annual fixed interest rate:

The fixed annual interest amount (6% p.a.) is paid out regardless of the performance of the three underlying indices.

▫ Safety buffer:

Attractive yield in sideways moving and slightly decreasing markets due to the partial protection against falling prices down to the barrier at 59% of the respective starting value

▫ Secondary market:

Tradability on the secondary market, no management fees

RISKS

▫ Barrier violation:

If the respective barrier is violated by at least one of the three underlying indices, the investor is entirely subject to market risk, without any protective mechanism. Close to the barrier, there can be disproportionate price movements of the certificate.

▫ Limited yield opportunity:

The opportunity for yields is in any case limited to the fixed interest rate (2 x 6% during the term). Investors do not participate in price increases of the underlyings beyond their starting values.

▫ Issuer risk / Bail-in:

Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor, an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG (www.rcb.at) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible. Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.
