#### DESCRIPTION

The **USD Europe express bond** offers an annual opportunity for early redemption and thus enables investors to obtain a profit of 5% per year if the EURO STOXX® 50 index remains unchanged or rises. In case the underlying index quotes below the starting value, the term extends by another year - up to a maximum of five years. In case of a negative index performance after 5 years, the investment is 100% capital protected at the end of the term.

If the index quotes below the starting value at the annual valuation date, the term extends by another year (up to a maximum term of five years). At the same time, the potential annual termination price rises by 8.25% of the nominal value annually (up to a maximum of 141.25%).
