DESCRIPTION

With the certificate **Europe Bonus&Safety 19** investors can obtain a bonus yield of 10% (based on the issue price) at the end of the term (August 2024) if the price of the EURO STOXX 50® index never declines by 51% or more of its starting value during the observation period. In addition, investors participate 1:1 in price increases of the index above the bonus level of 110% up to the cap of 130% of the initial value. Due to the cap this represents the maximum amount.

If the underlying touches or undercuts the barrier of 49% of the starting value, redemption will be effected according to the performance of the underlying (percent index performance from the starting value to the closing price at the final valuation date). Even if the bonus mechanism is suspended, investors can generate a maximum yield of 30% over five years term.
