Issue date	Mar 25, 2020
Tradeable unit/nominal value	1 unit
Multiplier	3.68324
Expected market trend	sideways, bullish
Listing	Frankfurt
Product currency	USD
Underlying currency	USD
Settlement method	Cash settlement
Taxation	Capital Gains Tax / no Foreign Capital Gains Tax

**DESCRIPTION**

With the USD Oil Bonus Certificate 2, investors will receive a bonus return of 13% based on the issue price at the end of the term (March 2022) if the price of Brent Crude Oil never loses 30% or more of its starting value during the observation period (settlement price on the initial valuation date). In this case, the certificate will be redeemed at USD 113. Due to the cap, this amount also represents the maximum amount (maximum payout). If the barrier of 70% of the starting value (30% safety buffer) is touched or undercut, the bonus mechanism is deactivated: The payment on the redemption date is based on the development of the underlying performance (percentage development of the oil price from the starting value to the settlement price on the last valuation day). Even if the bonus mechanism is deactivated, the maximum withdrawal amount remains limited to USD 113 per certificate.

**NOTE:** The product brochures for download already contain the current underlying price from March 20th, 2020.
