DESCRIPTION

With the certificate **MSCI World Climate Change Bonus&Safety 2** investors obtain a bonus yield of 25% at the end of the term, provided the underlying MSCI® World Climate Change Top ESG Select 4.5% Decrement index always quotes above the barrier of 49% of its starting value during the observation period. In the event of a barrier violation, investors are exposed to market risk on a one-to-one basis. In this case, a substantial capital loss is possible.

The index methodology (PDF) as well as further details on the index can be found on the website of the index provider MSCI by selecting the respective index in the dropdown menu. This certificate complies with the **sustainability standard for Raiffeisen Certificates** and takes into account important adverse impacts on sustainability factors ("PAIs").
